

The courses for adult learners and educators on the Minnesota Literacy Council (MLC) online training site are developed and maintained by MLC staff through supplemental service grants from the Minnesota Department of Education (MDE). They are provided free of charge to Minnesota's adult learners, teachers, volunteers, and other Adult Basic Education (ABE) practitioners. Out-of-state visitors are welcome to explore the site to access learning resources as well, but we cannot offer CEUs or course completion certificates to out-of-state users. If you are not a Minnesota resident, you are welcome to browse the self-access online learning materials, but please do not submit course assignments as we will not be able to respond to your submissions. Thank you!
